KEY DATES

Letter of Intent Requested	November 1 st , 2016
Application Initiation Deadline	December 1, 2016
Application Deadline	December 8, 2016 5:00pm
Award Notification	March 2017
Award Period	April 1, 2017 - March 31, 2018

Applicants are encouraged to submit a letter of intent to Victoria Roggen at vroggen@komenneny.org by November 1, 2016.

ABOUT SUSAN G. KOMEN TWIN TIERS

Susan G. Komen is the world's largest breast cancer organization, funding more breast cancer research than any other nonprofit while providing real-time help to those facing the disease. Komen was founded by Nancy G. Brinker, who promised her sister, Susan G. Komen, that she would end the disease that claimed Suzy's life. Komen Twin Tiers is working to better the lives of those facing breast cancer in the local community. Through events like the Komen Twin Tiers Race for the Cure®, Komen Twin Tiers has invested over \$1.2 million in community breast health programs in our nine county service area in New York and Pennsylvania and has helped contribute to the more than \$920 million invested globally in research.

NOTICE OF FUNDING OPPORTUNITY AND STATEMENT OF NEED

Komen Twin Tiers will award community grants to organizations that will provide breast health and breast cancer projects that address funding priorities, which were selected based on data from the 2015 Komen Twin Tiers Community Profile Report. The 2015 Community Profile Report can be found on our website at KomenTwinTiers.org.

The funding priority areas are listed below in no order of importance:

- Evidence-based survivorship programs that result in an improvement in quality of life for breast cancer patients, survivors and those living with metastatic disease.

While applications will be accepted for survivorship programs providing services within the Affiliate service area, priority will be given to applicants demonstrating benefit to breast cancer patients, survivors and individuals living with metastatic disease in **Bradford County, PA**.

- Programs that increase access to breast cancer services. The Affiliate seeks to fund programs that provide no cost or low cost breast cancer services (e.g., screening, diagnostic and treatment), financial assistance with diagnostic and treatment co-pays/deductibles and transportation.

While applications will be accepted for programs that increase access to care for individuals within the Affiliate service area, priority will be given to applicants demonstrating benefit to residents of **Tioga County, NY**.

- Programs that provide evidence-based, culturally relevant breast cancer education that results in documented age-appropriate breast cancer action (e.g., talk to doctor about breast cancer risk and/or receive a screening mammogram) for underinsured and uninsured individuals. One-on-one and group breast cancer education programs must include Komen's breast self-awareness messages and provide local breast cancer services.

While applications will be accepted for programs that provide breast cancer education for individuals within the Affiliate service area, priority will be given to applicants demonstrating benefit to residents of **Tioga County, NY**.

Examples of successful projects funded by Komen in the past include those that:

- Increased the number of women that utilize regular breast cancer screening;
- Decreased time from referral to mammography screening;
- Reduced the number of women “lost to follow-up;”
- Reduced time from abnormal screening to diagnostic procedures;
- Reduced time from diagnostic finding to treatment;
- Increased treatment compliance

Applicants may request funding from \$5,000 up to \$15,000 (combined direct and indirect costs) for one year.

ELIGIBILITY REQUIREMENTS

Applicants must conform to the following eligibility criteria to apply. Eligibility requirements for the applicants must be met at the time of Application submission.

- Individuals are not eligible to apply. Applications will only be accepted from a non-profit organization with 501(c)3 status (such as an educational institution, hospital or other medical facility, or a community organization) or a local/state government located in or providing services to one or more of the following locations:

New York Counties	Pennsylvania Counties
Broome	Bradford
Chemung	Potter
Schuyler	Tioga
Steuben	
Tioga	
Tompkins	

- Proposed projects must be specific to breast health and/or breast cancer and address the priorities identified in the Affiliate’s 2015 Community Profile. If a project includes other health issues along with breast cancer, such as a breast and cervical cancer project, funding may only be requested for the breast cancer portion.
- All past and current Komen-funded grants or awards to applicant are up-to-date and in compliance with Komen requirements.
- Applicant has documentation of current tax exempt status under the Internal Revenue Service code.
- If applicant, or any of its key employees, directors, officers or agents is convicted of fraud or a crime involving any other financial or administrative impropriety in the 12 months prior to the submission deadline for the application, then applicant is not eligible to apply for a grant until 12 months after the conviction. After such 12 month period, applicant must demonstrate in its application that appropriate remedial measures have been taken to ensure that any criminal misconduct does not recur.

ALLOWABLE EXPENSES

Funds may be used for the following types of expenses provided they are directly attributable to the project:

- Salaries and fringe benefits for project staff
- Consultant fees
- Clinical services or patient care costs
- Meeting costs
- Supplies
- Reasonable travel costs related to the execution of the program
- Other direct program expenses
- Equipment, not to exceed \$5,000 total, essential to the breast health-related project to be conducted
- Indirect costs, not to exceed 10 percent of direct costs

Funds may **not** be used for the following purposes:

- Research, defined as any project or program with the primary goal of gathering and analyzing data or information.
 - Specific examples include, but are not limited to, projects or programs designed to:
 - Understand the biology and/or causes of breast cancer
 - Improve existing or develop new screening or diagnostic methods
 - Identify approaches to breast cancer prevention or risk reduction
 - Improve existing or develop new treatments for breast cancer or to overcome treatment resistance, or to understand post-treatment effects
 - Investigate or validate methods
- Education regarding breast self-exams/use of breast models
- Development of educational materials or resources
- Education via mass media (e.g. television, radio, newspapers, billboards), health fairs and material distribution. These methods may be used to promote projects, but evidence-based methods such as 1-1 and group sessions should be used to educate the community and providers.
- Construction or renovation of facilities
- Political campaigns or lobbying
- General operating funds (in excess of allowable indirect costs)
- Debt reduction
- Fundraising (e.g. endowments, annual campaigns, capital campaigns, employee matching gifts, events)
- Event sponsorships
- Projects completed before the date of grant approval
- Payments/reimbursement made directly to individuals
- Land acquisition
- Project-related investments/loans
- Scholarships
- Thermography
- Equipment over \$5,000 total
- Projects or portions of projects not specifically addressing breast cancer

IMPORTANT GRANTING POLICIES

Please note these policies before submitting a proposal. These policies are non-negotiable.

- The project must occur between [April 1, 2017 to [March 31, 2018].
- The effective date of the grant agreement is the date on which Komen fully executes the grant agreement and shall serve as the start date of the grant. No expenses may be accrued against the grant until the contractual agreement is fully executed. *The contracting process can take up to six weeks from the date of the award notification letter.*
- Any unspent funds over \$1.00 must be returned to Komen Twin Tiers.
- Grant payments will be made in installments pending compliance with terms and conditions of grant agreement and receipt of satisfactory progress reports.
- Grantee will be required to submit a minimum of one semi-annual progress report and one final report that will include, among other things, an accounting of expenditures and a description of project achievements. Additional reports may be requested.
- At the discretion of Komen Twin Tiers, the grantee may request one no cost extension of no more than six months per grant. Requests must be made by grantee no later than 30 days prior to the end date of the project.
- Certain insurance coverage must be demonstrated through a certificate of insurance at the execution of the grant agreement, if awarded. Grantee is required at minimum to hold:
 - Commercial general liability insurance with combined limits of not less than \$1,000,000 per occurrence and \$2,000,000 in the aggregate for bodily injury, including death, and property damage;
 - Workers' compensation insurance in the amount required by the law in the state(s) in which its workers are located and employers liability insurance with limits of not less than \$1,000,000; and
 - Excess/umbrella insurance with a limit of not less than \$5,000,000.
 - In the event any transportation services are provided in connection with program, \$1,000,000 combined single limit of automobile liability coverage will be required.
 - If any medical services (other than referrals) are provided or facilitated, medical malpractice coverage with combined limits of not less than \$1,000,000 per occurrence and \$3,000,000 in the aggregate will be required.
 - Grantees are also required to provide Komen Twin Tiers with a Certificate of Insurance with Susan G. Komen Breast Cancer Foundation, Inc., Susan G. Komen Twin Tiers, its officers, employees and agents named as Additional Insured on the above policies solely with respect to the Project and any additional policies and riders entered into by Grantee in connection with the Project.
- Grantees who anticipate being unable to meet the insurance requirements must contact the affiliate prior to submission.

EDUCATIONAL MATERIALS AND MESSAGES

Susan G. Komen is a source of information about breast health and breast cancer for people all over the world. To reduce confusion and reinforce learning, we only fund projects that use educational messages and materials that are consistent with Komen messages, including our breast self-awareness messages -- know your risk, get screened, know what is normal for you and make healthy lifestyle choices. The consistent and repeated use of the same messages can reduce confusion, improve retention and lead to the adoption of actions we believe are important for quality breast care. Please visit the following webpage before completing your application and be sure that your organization can agree to promote these messages:

<http://ww5.komen.org/BreastCancer/BreastSelfAwareness.html>.

Breast Self-Exam- must not be taught or endorsed

According to studies, teaching breast self-exam (BSE) has not been shown to be effective at reducing mortality from breast cancer and therefore **Komen will not fund education projects that teach or endorse the use of monthly breast self-exams or use breast models**. As an evidence-based organization, we do not promote activities that are not supported by scientific evidence or that pose a threat to Komen's credibility as a reliable source of information on the topic of breast cancer.

Creation and Distribution of Educational Materials and Resources

Komen Affiliate Grantees are encouraged to use Komen-developed educational resources, including messages, materials, toolkits or online content during their grant period. This is to ensure that all breast cancer messaging associated with the Komen name or brand are current, safe, accurate, consistent and based on evidence and to avoid expense associated with the duplication of existing educational resources. Komen Grantees can purchase Komen educational materials at the Affiliate preferred price. If a grantee intends to use other supplemental materials, they should be consistent with Komen messages.

Komen grantees are eligible to receive preferred pricing for Komen educational materials. Komen materials should be used and displayed whenever possible. To view our educational materials, visit www.shopkomen.com.

Use of Komen's Breast Cancer Education Toolkits for Black and African-American Communities and Hispanic/Latino Communities and Other Resources

Komen has developed Breast Cancer Education Toolkits for Black and African-American communities and Hispanic/Latino communities. They are designed for educators and organizations to use to meet the needs of these communities. The Hispanic/Latino Toolkit is available in both English and Spanish. To access the Toolkits, please visit <http://komentoolkits.org/>. Komen has additional educational resources, including on [komen.org](http://www.komen.org), that may be used in community outreach and education projects. Check with Komen Twin Tiers for resources that may be used in programming.

REVIEW PROCESS

Each grant application will be reviewed by at least three independent reviewers. They will consider each of the following selection criteria:

Impact [30%]: Will the project have a substantial positive impact on increasing the percentage of people who enter, stay in, or progress through the continuum of care? Will the project have a substantial impact on the need described in the funding priority selected? Is the impact likely to be long-term?

Statement of Need [10%]: Does the project address at least one of the funding priorities stated in the RFA and the Affiliate's 2015 Community Profile? Does the project provide services to one or more of the target communities described in the Affiliate's 2015 Community Profile?

Project Design [20%]: Do the goal and objectives described in the Project Work Plan align with the project description and activities? Is it clear what, specifically, is being done through this project? Is the project designed to meet the needs of specific communities including the cultural and societal beliefs, values, and priorities of each community? Is the project evidence-based? Is the budget appropriate and realistic? Does the budget justification explain in detail the reasoning and need for the costs associated with the project? If the proposed project includes collaboration with other organizations, are the roles of the partners appropriate, relevant and clearly defined? How likely is it that the objectives and activities will be achieved within the scope of the funded project?

Organization Capacity [15%]: Does the applicant organization, Project Director and his/her team have the expertise to effectively implement all aspects of the project? Is there evidence of success in delivering services to the target population? Is the organization fiscally capable of managing the grant project, including having appropriate financial controls in place? Does the applicant organization have the equipment, resources, tools, space, etc., to implement all aspects of the project? Does the organization or staff have appropriate licenses, certifications, accreditations, etc. to deliver the proposed services? Does the organization have a plan to obtain the resources (financial, personnel, partnerships, etc.) needed to sustain the project beyond the grant term (if awarded)? Are collaborations (if proposed) likely to be sustained beyond the grant term?

Monitoring and Evaluation [15%]: Is there a documented plan to measure progress against the stated project goal and objectives, and the resulting outputs and outcomes? Is there sufficient monitoring and evaluation (M&E) expertise for the project? Are there sufficient resources in place for M&E efforts?

Sustainability [10%]: Is the program likely to be sustained beyond the grant cycle? Will Komen funding help the grantee secure additional funding for the program? Does this program create capacity within our community that is sustainable? Is the proposed program likely to require funding from Komen for more than 3 years? Is the program likely to be sustained in the event that a key staff member leaves?

The grant application process is competitive, regardless of whether or not an organization has received a grant in the past. Funding in subsequent years is never guaranteed.

Applicant Support: Questions should be directed to:

Victoria Roggen-- 518-250-5379-- vroggen@komenneny.org
Or Denise Trondsen--info@komentwintiers.org – 607-426-2404

SUBMISSION REQUIREMENTS

All proposals must be submitted online through the Komen Grants e-Management System (GeMS): <https://affiliategrants.komen.org>.

Applications must be received on or before Thursday, December 8 2016 at 5:00pm EST]. No late submissions will be accepted.

APPLICATION INSTRUCTIONS

Please use these instructions side-by-side with the GeMS system when completing the application. The instructions below are unique to the affiliate you are applying to.

The application will be completed and submitted via the Komen Grants e-Management System (GeMS), <https://affiliategrants.komen.org>. The required sections/pages in GeMS are listed in ALL CAPS and described below. For an application instruction manual, please visit the Affiliate's Grants webpage, <http://www.komentwintiers.org/grants/how-to-apply-for-funding/>, or contact Tori Roggen, 518-250-5379, vroggen@komenneny.org. When initiating an application on GeMS, please make sure it is a **Community Grants** application, designated "CG", and not a Small Grants ("SG") application to apply to this RFA.

PROJECT PROFILE

This section collects basic organization and project information, including the title of the project, contact information and partner organizations.

Attachments for the Project Profile page (if applicable):

- **Letters of support or memoranda of understanding from proposed collaborators–**
To describe the nature of the collaboration and the services/expertise/personnel to be provided through the collaboration.

ORGANIZATION SUMMARY

This section collects detailed information regarding your organization's history, mission, programs, staff/volunteers, budget, and social media.

PROJECT PRIORITIES AND ABSTRACT (limit – 1,000 characters)

This section collects important information about the priorities to be addressed and a summary of the project (abstract). This abstract should include the target communities to be served, the need to be addressed, a description of activities, the expected number of individuals served and the expected change your project will likely bring in your community. The abstract is typically used by the Affiliate in public communications about funded projects.

PROJECT NARRATIVE

This section is the core piece of the application. On the Project Narrative page of the application on GeMS, please address the requests below for each section.

Statement of Need (limit- 5,000 characters)

-
- Describe evidence of the risk/need within the identified population, using the RFA funding priorities and the 2015 Community Profile as a guide.
 - Describe the characteristics (race, ethnicity, economic status, and breast cancer statistics) specific to the target population to be served with Komen funding.
 - Describe how this project aligns with Komen Twin Tiers target communities and/or RFA funding priorities.

Project Design (limit- 5,000 characters)

- Explain the proposed project's overall goal and objectives, as outlined in your Project Work Plan, and what specifically will be accomplished using Komen funding.
- Explain how the proposed project's goal and objectives align with the stated priorities in the Affiliate's 2015 Community Profile.
- Describe in detail what will be done and how the project will increase the percentage of people who enter, stay in, or progress through the continuum of care.
- Explain how the project is designed to meet the needs of specific communities including the cultural and societal beliefs, values, and priorities of each community.
- Explain if and how the project is evidence-based and/or uses promising practices (please cite references). References should be compiled on a separate word document and uploaded to the page titled "Project Budget Summary".]
- Describe project collaboration and the roles and responsibilities of all organizations or entities participating in the project, and explain how the collaboration strengthens the project and why partnering organizations are best suited to assist in carrying out the project and accomplishing the goal and objectives set forth in this application.

Organization Capacity (limit- 5,000 characters)

- Explain why the applicant organization, Project Director and staff are best-suited to lead the project and accomplish the goal and objectives set forth in this application. Please include appropriate organization or staff licenses, certifications and/or accreditations.
- Describe evidence of success in delivering breast health/cancer services to the proposed population. If the breast health/cancer program is newly proposed, describe relevant success with other programs.
- Describe the equipment, resources, tools, space, etc., that the applicant organization possesses or will utilize to implement all aspects of the project.
- Describe fiscal capability to manage the delivery of the proposed goal and objectives and ensure adequate measures for internal control of grant dollars.
- Describe the organization's current financial state. How has your organizational budget changed over the last three years? Please explain increase or decrease.
- Describe the plan to secure and allocate resources (financial, personnel, partnerships, etc.) to sustain the project at the conclusion of the grant period.

Monitoring and Evaluation (limit- 5,000 characters)

Grantees will be required to report on the following outputs and outcomes in the progress and final reports: successes and accomplishments, challenges, lessons learned, promising practice example, a compelling story from an individual that was served with Komen funding and number of individuals served through Komen funding for each objective (county, race and ethnicity, age and population group). Please see Appendix B for a menu of options applicants

can select from when building their monitoring and evaluation plan. The metrics in Appendix B are specifically the types of reportable results we are looking for in grant program.

Applicants should include any templates, logic models or surveys to support the Monitoring and Evaluation narrative by adding attachments to the Project Work Plan page.

The Monitoring and Evaluation narrative must address the following items:

- Describe in detail how the organization(s) will measure progress against the stated project goal and objectives.
- Describe how the organization(s) will assess how the project had an effect on the selected priority.
- Describe how the organization(s) will assess project delivery. Describe the monitoring and evaluation (M&E) expertise that will be available for this purpose.
- Describe the resources available for M&E during the course of the project. Specify if these resources are requested as part of this grant, or if they are existing organizational resources.

[Sustainability: (limit 5,000 characters)]

- Describe in general how the organization will sustain the project when the grant cycle ends. Please include:
 - The projected lifetime on the program including the number of years you expect to apply for Komen funding for **this program** and end points that would cause you to discontinue the program (lack of funding, lack of interest, need met in the community, x number of individuals served).
 - Explain how funding from Komen will help secure additional funds from other sources for this project.
 - If Komen funding is not awarded to the program in subsequent years, explain what will happen to the program (i.e. Is this program dependent on Komen funding or will your organization include the program in the annual budget?).
 - For short term grants (those that require one time implementation or investment) specify how often continuing education, training or system maintenance will be needed and how those costs will be covered.
- Proof of Sustainability: If this project has been funded by Komen in the past, describe the extent of the community and participant buy-in to-date. Include whether participation goals (i.e. attendance, referrals, participants) have been met, partnerships that have been created and how you plan to improve upon the successes or lessons learned from last year's program.
- Describe any project infrastructure created through this grant that will be used beyond the completion of the grant cycle, including staff learning from the project
- If the project includes investment in technology or learning techniques:
 - Describe the evidence available to support the longevity of the technology or technique. (For example, does the most current scientific literature continue to support the technology? Have any scientific articles been published recently that may make the technology or technique obsolete or not evidence-based within the next few years? Does the program have the flexibility to evolve with the most recent scientific evidence or will it be difficult/expensive to change the program?) If the technology or technique is likely to be obsolete or replaced with a new

standard in your community in the next 3-5 years, please reconsider the design of your program.

- Describe any contingency plans related to the project and how the project will be sustained if a key staff member were to leave the project.
- Upload additional information if more space is needed

PROJECT TARGET DEMOGRAPHICS

This section collects information regarding the various groups you intend to target with your project. This does not include every demographic group your project will serve but should be based on the groups on which you plan to focus your project's attention.

PROJECT WORK PLAN

In the Project Work Plan component of the application on GeMS, you will be required to submit a single goal and corresponding objectives:

- **The Goal** should be a high level statement that provides overall context for what the project is trying to achieve.
- **Objectives** are specific statements that describe how the project will meet the goal. An objective should be evaluated at the end of the project to establish if it was met or not met.

The project goal must have at least one objective; there is no limit to the number of objectives. Please ensure that all objectives are SMART objectives:

Specific
Measurable
Attainable
Realistic
Time-bound

A guide to crafting SMART objectives can be located in Appendix A or at the following:

<http://ww5.komen.org/WritingSMARTObjectives.html>.

You will also be required to submit the timeline, the anticipated number of individuals to be served, and the evaluation method you will utilize for each objective.

Write your Project Work Plan with the understanding that each item must be accounted for during progress reporting. **The Project Work Plan should include a single goal that will be accomplished with funds requested from Komen Twin Tiers.** Objectives that will be funded by other means should **not** be reported here, but instead, can be included in your overall program description.

Example Work Plan (For additional examples and a SMART objective checklist, please refer to Appendix A.)

GOAL: Provide patient navigation to women with screening abnormalities in order to reduce delays in and barriers to diagnostic care.

OBJECTIVE 1: By February 12, 2018, the patient navigator will have contacted 100 percent of all women with an abnormal screening result within three business days to schedule a follow-up appointment.

OBJECTIVE 2: By March 31, 2018, the project will provide 30 uninsured/underinsured women free/reduced cost diagnostic procedures within 30 days of an abnormal screening.

Attachments to support the Project Work Plan page may include, but are not limited to:

- **Forms, surveys, and logic models** that will be used to assess the progress and/or the effectiveness of these objectives.

BUDGET SECTION

For each line item in the budget, **provide a calculation and a brief justification** explaining how the funds will be used and why they are necessary to achieve proposed objectives. A description of each budget category follows:

KEY PERSONNEL/SALARIES

This section collects information regarding the personnel that will be needed to complete the project. Any individual playing a key role in the project should be included in this section. This section should also include information for any employee's salary for which your project is requesting funds, if applicable.

Attachments Needed for Key Personnel/Salaries Section:

- **Resume/Job Description** – For key personnel that are currently employed by the applicant organization, provide a resume or *curriculum vitae* that includes education level achieved and licenses/certifications obtained. For new or vacant positions, provide a job description (**Two page limit per individual**).

CONSULTANTS/ SUB-CONTRACTS

This section should be completed if your project requires a third party to help with a piece of the project. Consultants are persons or organizations that offer specific expertise not provided by staff and are usually paid by the hour or day. Subcontractors have substantive involvement with a specific portion of the project, often providing services not provided by your organization. Direct Patient Care services, even in subcontracted, should not be included in this section; those funds should be included in the Patient Care budget section.

SUPPLIES

This section should include office supplies, education supplies, and any other type of supplies your organization will need to complete the project.

Note: Komen grant funds may not be used for the development of educational materials or resources. If awarded project funds, grantees must use/distribute only Komen-developed or Komen-approved educational resources. Komen grantees are eligible to receive preferred pricing for Komen educational materials. Komen materials should be used and displayed whenever possible. To view our educational materials, visit www.shopkomen.com.

TRAVEL

This section should be completed if you are requesting funds for any type of travel including conference travel, registration fees and mileage reimbursement by organization staff or volunteers related to project activity. (This section is NOT for transportation assistance for patients/clients – this expense should be recorded on the “Patient Care” page.)

PATIENT CARE

This section should include all funds requested for providing a direct service for a patient. This should be the cost you will need to provide the services mentioned in the goal and objectives of the application. Navigation or referral programs should not include the program costs in this section.

OTHER

This section should include any allowable expenses that do not fit the other budget categories. This section should only be used if the item cannot be included on any of the other various budget sections.

INDIRECT

This section collects the allowable indirect cost which is requested as a percentage of direct costs. The maximum allowable for indirect costs is 10% of the total amount requested.

PROJECT BUDGET SUMMARY

This section includes a summary of the total project budget. Other sources of funding must also be entered on this page.

Attachments Needed for the Project Budget Summary Section:

- **Proof of Tax Exempt Status** – To document your **federal tax-exempt status**, attach your determination letter from the Internal Revenue Service. Evidence of state or local exemption will not be accepted. Please do not attach your Federal tax return. To request verification of your organization’s tax-determination status, visit the following page on the IRS Web site:

<http://www.irs.gov/Charities-&-Non-Profits/EO-Operational-Requirements:-Obtaining-Copies-of-Exemption-Determination-Letter-from-IRS>

- **[Even if your organization has previously submitted your tax exempt documentation you will still be required to attach your 501c3 documentation in the project budget summary section this year. Grants will not be reviewed unless 501c3 documentation is attached to the application. (Government agencies excluded)]**

APPENDIX A: WRITING SMART OBJECTIVES

Project planning includes developing project goals and objectives. **Goals** are high level statements that provide overall context for what the project is trying to achieve. **Objectives** are specific statements that describe what the project is trying to achieve and how they will be achieved. Objectives are more immediate than goals and represent milestones that your project needs to achieve in order to accomplish its goal by a specific time period. Objectives are the basis for monitoring implementation of strategies and/or activities and progress toward achieving the project goal. Objectives also help set targets for accountability and are a source for project evaluation questions.

Writing SMART Objectives

To use an objective to monitor progress towards a project goal, the objective must be **SMART**.

A **SMART** objective is:

1. **Specific:**
 - Objectives should provide the “who” and “what” of project activities.
 - Use only one action verb since objectives with more than one verb imply that more than one activity or behavior is being measured.
 - Avoid verbs that may have vague meanings to describe intended output/outcomes (e.g., “understand” or “know”) since it may prove difficult to measure them. Instead, use verbs that document action (e.g., identify 3 of the 4 Komen breast self –awareness messages).
 - The greater the specificity, the greater the measurability.
2. **Measurable:**
 - The focus is on “how much” change is expected. Objectives should quantify the amount of change expected.
 - The objective provides a reference point from which a change in the target population can clearly be measured.
3. **Attainable:**
 - Objectives should be achievable within a given time frame and with available project resources.
4. **Realistic:**
 - Objectives are most useful when they accurately address the scope of the problem and projectmatic steps that can be implemented within a specific time frame.
 - Objectives that do not directly relate to the project goal will not help achieve the goal.
5. **Time-bound:**
 - Objectives should provide a time frame indicating when the objective will be measured or time by which the objective will be met.
 - Including a time frame in the objectives helps in planning and evaluating the project.

SMART Objective Examples

Non-SMART objective 1: Women in Green County will be provided educational sessions.

This objective is not SMART because it is not specific, measurable, or time-bound. It can be made SMART by specifically indicating who is responsible for providing the educational sessions, how many people will be reached, how many sessions will be conducted, what type of educational sessions conducted, who the women are and by when the educational sessions will be conducted.

SMART objective 1: By September 2017, Pink Organization will conduct 10 group breast cancer education sessions reaching at least 200 Black/African American women in Green County.

Non-SMART objective 2: By March 30, 2018, reduce the time between abnormal screening mammogram and diagnostic end-result for women in the counties of Jackson, Morse and Smith in North Dakota.

This objective is not SMART because it is not specific or measurable. It can be made SMART by specifically indicating who will do the activity and by how much the time will be reduced.

SMART objective 2: By March 30, 2018, Northern Region Hospital breast cancer patient navigators will reduce the average time from abnormal screening mammogram to diagnostic conclusion from 65 days to 30 days for women in the counties of Jackson, Morse and Smith in North Dakota.

SMART Objective Checklist

Criteria to assess objectives	Yes	No
1. Is the objective SMART?		
<ul style="list-style-type: none"> • Specific: Who? (target population and persons doing the activity) and What? (action/activity) 		
<ul style="list-style-type: none"> • Measurable: How much change is expected? 		
<ul style="list-style-type: none"> • Achievable: Can be realistically accomplished given current resources and constraints 		
<ul style="list-style-type: none"> • Realistic: Addresses the scope of the project and proposes reasonable projectmatic steps 		
<ul style="list-style-type: none"> • Time-bound: Provides a time frame indicating when the objective will be met 		
2. Does it relate to a single result?		
3. Is it clearly written?

APPENDIX B: MONITORING AND EVALUATION METRICS

Instructions: When designing an evaluation plan for your grant program, please use the options below to select appropriate metrics to measure for grant reporting. Applications lacking evaluation metrics will be rejected during compliance review.

GRANTS PROVIDING EDUCATION *(This includes one-on-one, group educational sessions and trainings, along with educational components of a screening or treatment program)*

- Number of educational/training sessions conducted.
- Number of participants that attended the educational/training sessions.
- Number and type of Komen breast health and breast cancer educational materials distributed to participants.
- Number/Percentage of participants that demonstrated an increase in breast cancer knowledge after the educational/training sessions. This data would be gathered by the participant completing a pre-test and post-test.
 - Average percentage increase in knowledge reported by participants that attended the educational/training sessions. This data would be gathered by the participant completing a pre-test and post-test.

GRANTS PROVIDING SCREENING, DIAGNOSTIC, TREATMENT AND TREATMENT SUPPORT SERVICES

This would include grants that provide funding for the following breast cancer services:

- *Screening- including, but not limited to, clinical breast exams and mammograms*
- *Diagnostics- including, but not limited to, diagnostic mammograms, ultrasounds and biopsies*
- *Treatment- including, but not limited to, surgery, chemotherapy, radiation, hormone therapy, targeted therapy and survivorship care plan*
- *Treatment Support- including, but not limited to, childcare, transportation and complementary/integrative therapy*

Screening and Diagnostic Services

- Number of individuals that received a (insert service).
 - Number/Percentage of individuals that received (insert service) within 30 days or less from referral date.
 - Number/Percentage of individuals that received (insert service) 31-60 days from referral date.
 - Number/Percentage of individuals that received (insert service) 61-90 days from referral date.
 - Number/Percentage of individuals that received (insert service) 91 or more days from referral date.

-
- Of the individuals that received a (insert service), the number of individuals that had an abnormal result.
 - Of those with an abnormal result, the number of individuals that completed the referred diagnostic services.

For Biopsy Only:

- Of the individuals that received a diagnostic biopsy, the number of individuals that were diagnosed with breast cancer.
 - Of the individuals diagnosed with breast cancer, the number of individuals referred onto treatment.
 - Of the individuals diagnosed with breast cancer and referred for treatment, the number that initiated treatment.

Treatment Services

- Number of individuals with breast cancer that were recommended to receive a (insert service) as part of their treatment plan.
 - Number/Percentage that initiated (insert service) treatment within 30 days or less from referral date.
 - Number/Percentage that initiated (insert service) treatment 31-60 days from referral date.
 - Number/Percentage that initiated (insert service) treatment 61-90 days from referral date.
 - Number/Percentage that initiated (insert service) treatment 91 or more days from referral date.
- Number of individuals that completed their recommended (insert service) treatment.

Treatment Support Services

- Number/Percentage of individuals that self-reported that the service provided assisted them in completing their recommended treatment plan. This data would be gathered by the individual completing a survey after they received the service.
- Number/Percentage of individuals that self-report an improvement in quality of life (i.e. physical, social/family, emotional and functional) after receiving the assistance. This data would be gathered by the individual completing a survey after they received the service or a comparison between a pre/post survey about quality of life.

GRANTS PROVIDING FINANCIAL OR TRANSPORTATION SUPPORT

Financial Assistance

- Number of unduplicated individuals who received financial assistance
- Total Number of financial assistance payments made (i.e. number of unduplicated individuals times the number of treatments or co-payments they were provided with)
- Average cost of a financial assistance payment

Transportation Assistance

- Total Number of unduplicated individuals transported (i.e. how many people participated in the program at least once.)
- Total Number of rides provided
- Total Number of rides to screening
- Total Number of rides to treatment
- Total Number of rides to support programs and services
